This package has installed:

- Node.js v24.11.0 to `/usr/local/bin/node`
- npm v11.6.1 to `/usr/local/bin/npm`

Make sure that `/usr/local/bin` is in your `$PATH`.

✅ Step-by-step:

1. **Open your zsh config file:**

   ```
   nano ~/.zshrc
   ```

2. **Add this line** (if it's not already there):

   ```
   export PATH="/usr/local/bin:$PATH"
   ```

   This ensures `/usr/local/bin` is searched *before* other paths.

3. **Save and exit:**

   Press `CTRL + O` → Enter → `CTRL + X`

4. **Reload your shell configuration:**

   ```
   source ~/.zshrc
   ```

5. **Verify the path:**

   ```
   echo $PATH
   ```

   You should see `/usr/local/bin` near the start of the printed output.

✅ Verify Node & npm installation:

```
node -v
npm -v
```

You should see:

```
v24.11.0
11.6.1
```
